A Decree Entered Dismissing the Bill of Complainants, with the Costs of Suit to Defendants --- A Synopsis of the Salient Points in the Case.

NASHVILLE, September 27.—The decision of Judge Withey, of the United States cirand other holders of Tennesse: State bonc's against the Tennessee railroads, was received to-night by Lewis T. Baxter, clerk of the circuit court. After reciting the tenor of the bonds and the statutes under which they were issued and the claims of the parties, the

The decree will be entered in each case dismissing the bill of complainants therein, with costs to defendants. It will be remembered that the defendants in this suit contended that they required no new privilege as to how and with what they could pay their debts to the State under the acts of 1869 and 1870, and that the assumption that 1869 and 1870, and that the assumption that they did proceeds from the misrepresentation of the repudiating class, seconded by the bondholders, seeking through the crection of an artificial public sentiment to fix upon the railroads the liability for the bonds that had been issued to them. The decision effectually disposes of the defamatory charges, both against Tenuessee railroad management and the friends of State credit, and will have the effect to materially strongthen the State.

In last Sunday morning's APPEAL appeared a communication from D. P. THE BURSTED TUNNEL.

The business committee also recommended that the next council of the alliance be held in 1884, and that the invitation of the Irish delegates to have the council meetings held in Belfast be accepted. The resolution was adopted by a rising vote.

JERSEY CITY, N. J., September 27.—Work at the tunnel was renewed this morning, with an extra gang of men. They commenced cutting away the iron plates of the tunnel, which prevented the lowering of the caisson. By 6 o'clock this evening that was accomplished, and the caisson was lowered two feet when eight bodies were discovered, and shortly afterward taken out of the caisson, and from there to the morgue. Of the eight four were identified as the remains of Bryan Sheridan, James Creany, Thomas Burns and Michael Broderick. It was impossible to identify the remainder.

The continental demand does not appear to be satisfied yet. Several cargoes of wheat and maize are off the coast, having been taken for France and Holland. The arrivals at the ports of call have been small. There has been a steady demand for wheat for the United Kingdom and the continent, and prices continued to improve, red winters closing from 6d to 9d, and Australian, from 3d to 6d higher.
